# Una gran luz en cada imagen

## La historia de Profoto

Profoto es mucho más que una marca. Profoto es mucho más que los productos de modelado de luz que hacemos.

Profoto trabaja para que cada imagen alcance su máximo potencial ayudando a su creador a que le pueda dar la mejor calidad de luz. Y si piensas en el hecho de que se toman literalmente miles de millones de imágenes cada día, entonces empezarás a comprender el enorme alcance de nuestro compromiso con la excelencia del modelado de luz.

La dedicación y la pasión han quedado grabadas en nuestro ADN desde el principio. Hace 50 años, nuestros fundadores Conny Dufgran y Eckhard Heine decidieron fabricar el mejor flash para los mejores fotógrafos. Y lo consiguieron. Este es un estándar que no solo pretendemos mantener, sino también superar.

Puesto que creemos que la luz es el núcleo indispensable de toda creación de imágenes, independientemente de la cámara o de la situación, la posibilidad de crear imágenes extraordinarias está directamente vinculada a la capacidad de dominar el modelado de luz.

Ese principio básico es clave para hacer posible un mundo repleto de imágenes increíbles, además del propósito de cada una de las herramientas de modelado de la luz que fabricamos
